- Nptel - Data Analytics with python
- python certificates
- web development(HTML,CSS, JavaScript)
- Data Entry

LANGUAGES

- Tamil
- English

CONCLUSION

Motivated Information Technology student with skills in web development and basic programming. Passionate about building user-friendly projects, learning new technologies, and growing as a software developer.

PROFILE

Motivated Information Technology student with basic skills in web app development using HTML, CSS, JavaScript, and Firebase. Possesses foundational knowledge in Python and data handling, along with strong communication skills in Tamil and English. Developed projects such as a Lost and Found web application and a personal portfolio website, demonstrating practical experience in real-time databases and user-focused design. Eager to learn new technologies, contribute to innovative projects, and grow as a web and software developer.

PROJECTS

Personal Portfolio Website

- Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript
- Implemented modern UI features like navigation bar, hover effects, dark mode, smooth scrolling, and animations
- Added sections for projects, certificates, contact form, and resume download
- Improved frontend development and UI designing skills through this project
- Link : <https://monika225.github.io/portfolio/>

Lost and Found web Application using Firebase

- Developed a web application to help users report and find lost items
- Created user-friendly frontend pages and project navigation
- Learned project structuring and deployment through this application
- Link : <https://monika225.github.io/lost-found-app/>

INTERNSHIP

1.New Technology institutions-UI/UX

- Supported UI/UX design process by researching user needs and creating simple design layouts.
- Created wireframes and prototypes using design tools while collaborating with the development team.

2.CodeBind Technologies-Digital Marketing

- Supported digital marketing activities including social media posting and content creation.
- Helped in promoting products/services through online platforms and tracking campaign performance.
